

HILL NATURE PRESERVE PRESENTS:

Medicinal and Edible Plants of the Eastern Forests

David Foster, M.S., Ph.D.,

Professor of Biology and Environmental Science,
Messiah College, Grantham, PA

This event will take place at the Adams County Agricultural Center
at 670 Old Harrisburg Road in Gettysburg from 6:30-8:00pm.

In advance: \$10.00 for Strawberry Hill Members and \$13.00 for Non-members.

At the door: \$12.00 for Members, \$15.00 for Non-members.

Registration required: (717) 642-5840 or info@strawberryhill.org

Could you survive if you
were lost in the
woods? David Foster will
provide insight and
inspiration as he leads our
involvement and intrigues
our interest in identifying
interesting nutritional and
medicinal characteristics
of wild plants.

Tuesday, October 2, 2012

Dr. David Foster's presentation will focus on the basic chemistry of plant defense, animal adaptations to those defenses, and our use of plants for food, spice and medicine. Workshop participants will journey through the smells and tastes of these plants by sampling them and understand how the human body is hardwired to detect and classify such compounds.
